CLARIFYING STATEMENT: Subject address was given by M. H. El Farra, member of the Syrian delegation to the United Nations at the 1953 Summer Institute on Africa held at Lincoln University, Lincoln University, Pennsylvania, on 31 July 1953.

M. H. El Farra is a wispy young Syrian, appearing to be about 30 years old, who seems to hate everyone. In conversation with him he expressed strong hatred for the French and any of their works. Equally he expressed hatred of the Jews and claimed that giving them a home in Palestine was an unforgivable crime against the Arab world. He expressed lesser hatred for the British as having originally instigated this crime of Israel and to about the same degree he expressed dislike for the US for having consistently backed the Jews and their aspirations against the Arabs.
